# Bringing EU 2.0 to the Table

The European Symposium of Small Communities **builds upon past successful twinning initiatives**, aiming for a deeper debate and discussions program, towards a more effective dissemination and **promotion of the European values**. This Twinning initiative bridges communities with a common background of small community size, aiming to enlarge the sense of belonging to the European Union of these Small Communities and **foster the dialogue among them on future-altering issues and policies**.

## We hope to discuss:

- Local Impact of EU Policies.
- European Identity and Values.
- Youth Engagement in Politics.
- Cosmopolitanism in Small Communities

# Where

Vila Boa do Bispo,  
Marco de Canaveses
